People who naturally feel annoyed at seeing their names spelled wrong in the paper and sometimes "go for" the editor or reporter, must remember that there is one above, greater than he, the festive compositor, who delighteth in getting in a wrong letter or so, and who has the a wrong letter or so, and who has the last say about these things.

Here are some of the names given to "secial reunions" by the young men and women of a certain part of Pennsylvania: "Rainbow Teas," "Bachelors' Meets," toast and Cheese," and probably most popular of all, the "Eclipse Surprise Party." The members of Co. "H," O. N. G. don't feel very skookum over the result don't feel very skookum over the result of the recent effort to get enough for rent and current expenses and are considering the matter of ways and means as to continuance. Here is a chance for some of our Astoria philanthropists to sid in the maintenance of a worthy organization. It isn't fair to expect the boys to go down in their pockets probono publico right along.

The Army and Naval Journal prints a letter from a naval officer, who sug-gests that the ancients, who knew the value of oiling troubled waters, learned this method from observing the sea birds. All fish eating birds, cape pigeons, petrels and the like, eject oil from the mouth when captured. In the south Pacific the writer had witnessed sea pirds floating in spaces of comparatively quiet water when the sea around was rough. The unusual smoothness of the water was evidently due to considerable quantities of oil deposited by the birds.

Few people among the sixty millions scattered throughout the length and breadth of the Union, would believe that there is a section of the United States where the result of the presidential election will not be known until next July, eight months after the official returns are published to the world. Such is the fact, however. The settlers of St. Michael's, the Sea Islands and those dominiled along the banks of the lower Yukon, will remain in uncertainty as to the outcome of the contest until after the midnight sun has come and gone, during next midsummer.

Commander William Blackmore
Noble, one of the oldest officers in the
British navy, is just dead in his one hundredth year. At the beginning of the
Peninsula war he commanded the
schooner, which, after crossing the bar
in Montego bay, landed the first guns for
the Duke of Wellington, then Sir Arthur
Wellesley. He was present at the surrender of St. Sebastian, for which he
also received a medal, and in America
commanded a party of seamen which
placed the scaling ladders at the storming of Fort Erie in 1814. He had been
for many years on the retired list.

The state supreme court has decided that a party who takes a mortgage in the form of an absolute deed is bound to observe the most scrupulous good faith, and if questioned by a creditor of the mortgager, or other person having an interest in knowing the fact, he must carefully and truly disclose the true nature of his security. An untruthful statement touching a material fact in relation to such, securities, or a failure to make a full and true disclosure when required, will postpone such security to to make a full and true disclosure when required, will postpone such security to that of a subsequent attaching creditor. A deed intended as a mortgage, while good between the parties, is to some extent ta questionable security when the interests of a third person or creditor are concerned. It tends to cover up and keep concealed the real nature of a transaction between the parties, and will therefore be clearly scrutinized.

AN INTERESTING CARD,

Since the Drs. Darrin have opened an office a few days ago in this city, at the Occident hotel, they have attracted considerable attention, and we have been handed the following card for publication which speaks volumes for their citil.

EDITOR ASTORIAN: Dear Sir:—I was affected with kidney and liver complaints for four years, and was given up to dis. As a last resort I applied to the Drs. Darrin, in Portland, who examined my case thoroughly and said that I might be cured. I put myself under treatment, and soon felt much relief, and in a short time was entirely cured.

With a smile that was childlike and bland, two Mongolians, Ah Yik, and Ah Yak, yesterday presented themselves at the court house, and with a tear in each eye and a big chunk of tobacco in each hand prayed sheriff Smith to let them see their "fliends" whom justice May had ordered imprisoned for larceny the day before, that they might mingle their tears and give the unfortunates some tobacco.

The sheriff broke over the hig tobacco.

THE SURVEY ORDERED.

Some New Townships in the Market.

Some time ago surveyor general Doug-las Taylor took up the request of a good many in this and other counties to have sundry townships of fine land surveyed and put in the market, the chief difficulty

and put in the market, the chief difficulty being that the government price allowed for surveying wouldn't touch one side of it, especially where it is rough country and hard to get through, except where one strikes an elk trail.

An effort has been made to secure an allowance of increased rates. This has been successful, and the secretary of the interior has notified the state officials that such augmented rates will be allowed for surveying public land in this and other counties, not heretofore thrown open.

The land to be so surveyed comprises, in Clatsop county, townships 5 north, 8 west, 6 north, 8 west, 117 miles; township 4 north, range 7 west; township 4 north, range 8 west, 96 miles; and township 4 north, range 9 west, 53 miles; ranging from Mishawaka and Saddle mountain to Onion Peak on the Nehalem and comprising a large area of fine land.

The augmented rates are \$13 per mile The augmented rates are \$13 per mile for meridian and meander lines, \$11 for township lines and \$7 for section lines, being a raise from \$9, \$7 and \$5, respectively, these rates being only allowed where the lines pass over heavily timbered, or mountainous lands.

Surveyor general Taylor has advertised for bids to do the work.

A DESIRABLE INVESTMENT. Seaside Lots at Ocean Park a Good Bny.

Not many years ago, certainly within the memory of most of us, the section of Atlantic sea coast along the Jersey shore, was comparatively unknown, save by its humble dwellers and a few who were in the habit of going down for an occasional sea bath. Now the coast is fairly lined with sea side resorts and from Staten island to Cape May the summer population of the present time will reach half a million souls. People found that going to the sea side afforded not only more enjoyment but gave them greater healthfulness, and consequently what was almost unknown twenty years ago is to-day the best known locality in the United States, and people as far west as the Mississippi go to the Atlantic sea side during some portion of the summer. To purchase a lot in any of the towns along the coast requires an outlay of from \$500 to \$10,000. Our own sea side is coming into as great prominence and is yearly being peopled by people from Washington, Oregon, Idaho and Montana, and it is only a question of a few years when property will reach a high figure. It behooves one to make an investment in the most promising resort of the north west coast—Ocean Park—while you may, as at the astonishing low figures at which Robb & Parker are selling lots in Railroad addition, everyone can afford to make an investment. It has the advantage of railroad connection with Ilwaco, and is within fifteen minntes walk of Shoalwater bay, across which only five miles away is Long Island, with Diamond City, a most beautiful and romantic spot. On the bay you can dig clams, gather oysters or take a ride in the crack sail boats of the coast.

How Men Die.

If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes inevitable. In many instances the inherent strength of the body suffices to enable it to oppose the tendency toward death. Many however have lost these forces to such an extent that there is little or no help. In other cases a little aid to the weakened Lungs will make all the difference between sudden death and many years of useful life Upon the first symptoms of a Cough. Cold or any trouble of the Throat or Lungs, give that old and wellknown remedy-Boschee's German Syrup, a careful trial. It will prove what thousands say of it to be, the "benefactor of any home."

A Sound Legal Opinion. E. Bainbridge Munday Esq., County Atty., Clay Co., Texas says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: He postively believes he would have died had it not been for Electric Bitters.

This great remedy will ward off, as

This great remedy will ward off, as well as cure all Malarin Diseases, and for all Kidney, Liver and Stomach Disorders stands unequaled. Price 50 cents and \$1, at Jno C. Dement's.
